1. You accidentally run into something in normal use of a digital environment, or
2. You are consciously looking for weak spots.

Judicial prosecution

It is possible that you have taken actions that are prohibited by law in the course of your investigation. If you have complied with the conditions below, we will not take any legal action against you. However, the Public Prosecutor still has the right to decide whether to prosecute you.

What we expect from you

We would like to work together to better protect our systems. It is important to follow the following procedure:

1. Email your findings/vulnerabilities to csirt@org.hanze.nl as soon as possible. To prevent the
